ABOUT ARTLOGIC ONE : THE SINGLE-USER EDITION FOR GALLERIES

Artlogic One - the single-user edition for galleries is a simplified version of the art gallery system and is sold as per our demonstration system with some limitations. Feel free to review our demonstration system and discuss the system with us to ensure its suitability before placing an order. This Edition has fewer features – for instance it does not have Marketing and Events list management, mass HTML mailings functionality, the creation and tracking of Offers or multiple galleries, amongst other things. It has a single login which means only one person can use the system and you will never be able to add another user with a different login or privileges to you without paying the difference to upgrade and a new ongoing fee. If you need any functionality for the full version of the system please request a quote for that instead (see our website for current prices).

To place your order, please sign this document on page two and return both pages by post to the address at the top of this page, or fax it to Artlogic Media Limited +44 20 7149 9800 or scan both pages and email back to us.

Your signature confirms agreement to the prices shown above and the conditions of sale on page two plus our standard terms and conditions and our Artlogic-AOL-terms.pdf document. The signatory should be a director or owner. If that is not possible the role of the signatory should be explained to us.
